$$\frac{\text{Variable Costs}}{\text{Water Sales}} = \frac{\$25,800}{13,122 \text{ mg}} = \$1.97/1,000 \text{ gal}$$

\$2.00/1,000 gal

AMENDMENT II

XVIII. C. Individual residential well owners can apply to leave their wells uncapped for one or more of the following reasons:

1. That the well be used for outside activities only, i.e. watering of gardens, lawns and livestock.
2. That all residential units be connected to the tribal water system and that all sewers be connected only to the tribal system.
3. That each well left uncapped is tested to make sure that it meets all code requirements both for plumbing and health issues prior to that connection of tribal water and that it be tested each following year. Cost of testing will be born by the property owner, and performed by the utility department.
4. If any well is not used for a period of one (1) year after the municipal connection, it shall be capped and the cost of the capping borne by the property owner.
